

CLUB TIMES

Greetings to all. I hope you are enjoying all that our programs offer. They are great opportunities to learn, be entertained, and best of all, to connect with one another. The counselor persona in me can't help but mention the importance of community and connection in all life, but particularly as we age and our worlds become smaller.

Where else in town can you attend an evening of fine dining and entertainment alone or as a couple and not need to know anyone in the room? I can assure you that you will be seated with others thoughtfully curated to make for a connecting and engaging evening. Please don't shy away from our luncheons and dinners because you don't know anyone else going.

I am very excited about our upcoming events. We try and offer a nice balance between strictly fun events and more serious musical performances. We are doing an Open House Block Party on October 2 for members and the community at large. We are showcasing our class offerings with representatives from each class or activity. We are also having light bites and a great performance by Mark Zauss. Members, please bring friends to see what a jewel all the University Club offers!

For a fun event, join us in October 16 for Octoberfest with Jimmy Horzen. Jimmy is an accordionist who has performed for years at Hollerbach's German Restaurant in Sanford as well as at Epcot's Germany Pavilion. Get ready to act foolish and Chicken Dance like no one is watching!

Our November 20th luncheon is a great place to learn about IDignity and how lack of identification leads to systematic blockout to housing, jobs, healthcare, and vital resources in the community. Most of our lunches are focused on educating whether it be about community services, Literature, History, Culture, Health and Science, or the curious and obscure. Our November 6th dinner features entertainment by Johnny Mag, a saxophone player that some may recognize from his performances at the Garlic in New Smyrna Beach.

Backgammon is a widespread Western member of the large family of table games, with a history that dates back at least 1,600 years. An early record of backgammon itself is seen in a specific reference to the game, found in a letter from 1647, when it was emerging as a variant of the popular medieval Anglo-Scottish game of "Irish." Join the new Chair Hans Bucheli on October 12th at 2 p.m. All levels are welcome.

We are also starting a new AI Current Events on Oct. 28th at 6 p.m. This event will be hosted by Ralph Losey and will be held on the 4th Wednesday of each month.

Opera Appreciation is back! Starting the 1st Thursday of October at 10 a.m. Please welcome our new Chair Bob Rolle. This month's speaker is Lisa Nason of the Orlando Opera Company discussing the opera Madame Butterfly.

Join in for the 2nd Odyssey Discussion Group on Wednesday, Oct. 7th at 1 p.m. in the library.

I've been an amateur astronomer since I was 15 (that was a LONG ago), and thought I'd like to do a Powerpoint survey of modern scientific knowledge of the planets. I've got this planned as two one-hour sessions in November, and you WILL want to attend both sessions, since it takes two hours to present the whole thing; the Solar System's a big place. If it's well received, I might do one on the Universe as a whole, which is an even BIGGER place.
