

CLUB TIMES

Hello fellow Club Members as your Vice President of House and Grounds, I am pleased to share this period's status update of various projects I am focusing on and the team that I'm proud to say is making it all happen. First, a little about me.... I have 30 years in the construction industry most of it as President and owner of Dynamic Concrete Services doing primarily commercial concrete projects throughout the southern and eastern United States. Some of the projects closer to home that you may be familiar with are the City of Winter Park Pavilion and the Orlando Science Center.

As far as my team: As we say goodbye to our prior Facilities Manager Manuel Sauri, we extend our warmest welcome to our new Facilities Manager Dustin Belanger and also to Evan McKinney who just joined team. I would like to also express continued appreciation to Lady Betancur and especially Elkin Betancur who has supported our facilities operations on a part-time basis for over five years. Managing the facilities is not an easy task as expectations are high for both Club Members as well as rental patrons.

Our group works closely with me as well as all our program leaders and event coordinators to ensure our day to day operations run smoothly. We are incredibly fortunate to have such a strong collaborative team.

This year has already brought meaningful improvements, including the installation of a new air conditioning system and we are currently working to further develop an upgraded audiovisual system to enhance member experiences throughout our building. Last year an initial phase began in our library.

We are now actively creating plans to acquire a state of the art audio visual system in our main hall. We have a very eager and capable technical committee, including Randy Ellington and Bob Katz to ensure we will get a great system. We hope this will not only enhance our member lectures and programs but also be a great selling point to our potential renters which will boost the Club's rental revenue. Also to enhance our floors we hope to invest in a commercial floor buffing machine to keep our floors clean, polished and spotless year-round.

Another exciting area that House and Grounds is focusing on is the enhancement of our outdoor spaces. We are launching a comprehensive landscape initiative to ensure that our grounds become a source of pride and a valued asset within the beautiful Winter Park community. We have already overseen the replacement of the pavers at the Gazebo, improving both safety and appearance. Going forward, you can expect to see meticulously maintained lawns and shrubbery that will enhance our rental potential, increase community interest, and reflect the prestige and excellence of our organization.

All in all, I am very excited to be VP of House and Grounds and work with a great Board and serve you, our valued Members. I am always open to your concerns and ideas and feel free to stop to chat anytime you see me or just send me an email. I am looking forward to the opportunity of working with the Club in maintaining a great image for our house and grounds and keeping The University Club a prestigious neighborhood organization of Winter Park.

Sincerely,

Bill Anderson V.P. House and Grounds

Intellectual Activities

The Open House was a great success. Representatives of the various Intellectual Activities were on hand to explain what they did, and why our visitors might be interested in joining. I was told that we got 8 new membership applications as a result. The food and entertainment were wonderful. Thanks to Ed Korry and Molly Losey for putting this together.

My last Odyssey film presentation was on Oct. 7. Socky O'Sullivan and his wife Susan attended. I particularly appreciated input from Socky, who has taught the Classics. It was reassuring to have someone there who could tell me if I was too off-base!

My Solar System presentation (in two parts, because the Solar System is a big place.) will be on Wednesday, Nov. 4 and Friday, Nov. 6 starting at 1 PM. I'm going to be sending out more info in a Club notice soon.

Opera Appreciation started again in September and was a huge success. Backgammon has also started again and players of all levels are welcome! Backgammon is a widespread western member of a large family of table games, with a history that dates back at least 1,600 years. Come see what you are missing! Next meet up is Nov. 9th at 2 p.m.

Did you know?

There are those among us who face barriers to employment, housing, banking, healthcare, and social services simply because they have no legal proof of identity!

Most of us take for granted the small piece of plastic that opens doors to everyday life. But for many of our neighbors, losing the ability to prove who they are can make them feel "invisible" – some even describe themselves as a ghost. In this presentation, you'll learn how IDignity helps U.S. citizens overcome complex documentation barriers so they can access healthcare, employment, housing, and stability. You'll hear compelling stories of lives restored, and get an update on IDignity's new permanent headquarters.

Reservations Open Monday, 16 Nov..
Close Tuesday, 24 Nov.
